8 calculations

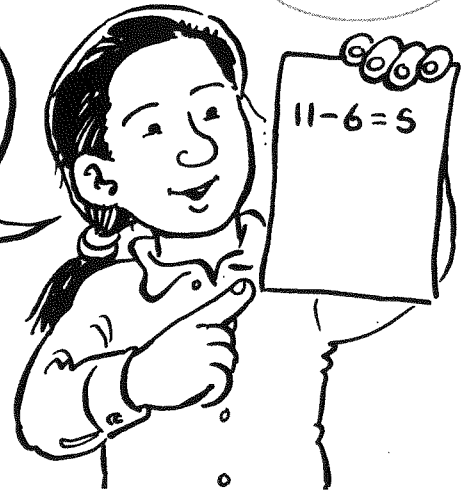

- pencil and paper

Using only these number cards I can make 8 different calculations with their answers.

- Is Sita right?

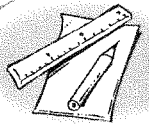

- What about 3, 4, 7 and 12?
- Can you think of any other sets of four numbers that together will give you eight calculations?

Collins New Primary Maths: Investigations 2

- pencil and paper

- Use the digits 0 to 9 to investigate different ways of making 6.

- What if you could only use each digit once?
- Investigate different ways of making other numbers.
